PROPOSAL
For
On Campus Workshop Program

On
Python

Submitted by: -

Mr. Shadab Ahmad Khan

(JustJava Software Training Center)

Our Moto

"Make the impossible possible, make the possible easy, and make the easy elegant"

Dear Sir,

Accept our heartfelt greetings!!

As we are longtime admirer of the outstanding work done by your organization in recent past, this proposal is in continuation to our attempt of updating your students with latest market technologies at your doorstep in short time. It's my pleasure to introduce **JustJava Software Training Institute, Lucknow**, a renowned Software Training Organization, well known for providing quality education in advance fields such as Java, Python, Android, Spring Framework, React Native, Campus Recruitment Preparation. Currently, these are the most demanding and largest job-providing technologies. We wish to conduct workshop programs in these fields at your college campus.

Your college students may be well placed in the market, but being trained in workshops by professionals, definitely gives them an edge. Our past experience of training 500+ students exemplifies this statement.

This workshop program is designed as per market survey to provide the technologically advanced concepts and basically a comparison between Java and python.

along with basics to aptly fit in the hectic semester schedule and at the no cost as well. For the benefit of student fraternity, an Industrial exposure and hiring trends along with facts & figures of the Industry is provided by different online resources like 'stackoverflow' in the first session.

About Trainer:
Mr. Shadab Khan also aliased as 'Shadab Sir' by many students, is one of the leading Java/Python trainers and has played a key role in building successful careers of many students in Java. His high passion towards teaching and deep reach-ability to any student helps to establish a great bond with students, resulting in simplifying the process of getting Job. With over 6+ years of experience in IT development as well as training on multiple skills like **Python, Java, Advance Java, Spring, Hibernate**, Real-Time Tools, etc. (ranging right from ground level to the high extreme concepts) … and his IT work experience helps for providing best for the students. This not only helps student from perspective of getting a good Job but also in sustaining Jobs in highly competitive environment. His continuous contribution to IT and a wide network of his trained Java Professions in IT, keeps his classroom content always up-to-date with latest market trends in IT. He is a proven example of sincerity, dedication and punctuality over his entire training experience. There are a lot of incidents in which not only the Job seekers but also the Job providers are his old students, which results in quick bonding between the two.

If student and management will get satisfy by the performance of trainer, college management can provide In-house training opportunity to us.

We look forward for this mutually beneficial opportunity and your benign cooperation in this endeavor.

We will be glad to revert back your positive reply.

Thanking you
Shadab Ahmad Khan
(Software Developer by Profession and Software Trainer by Passion)
